Hi Luboš!

I'm sending you the log from today's NZ round. Conditions were pretty good, and there were quite a few stations.

73! Peter, OM5CX

Hello, testers,

A fast-paced contest today—thanks for the contacts, Luboš for the results, and see you next time

73 Miro OM3ZU

Thank you for the race and the results, Radek OK1BM

Hi everyone, and thanks for the contact. I'm still operating without a PC, and today I got a little confused during the first stage of my contact with Svát'a—my apologies to him. But since I don't send my log without a PC, I guess I'm not doing too much harm, heh.

73 Libor OK1DU

Thank you all for joining us.

Have a nice evening.

Jirka ok1uky

Nice contest. Thanks for the QSO, and thanks to Luboš for the results.

73, Robert OK2PYA

Hi Luboš,

I'm attaching the LOG from NZ.

Thanks for everything, 73, Vilo OM4AY

My apologies to Svat, I didn't read the table. Lots of stations, few connections.

73, Tom OK2BFN

Thanks for the QSO and the feedback.

73 Lád'a OK2BLD/Q

Please find attached the contest log for the Sunday Contest on April 19, 2026. Tomas OK1IC

I didn't start operating until 34 minutes past the hour today due to heavy interference from neighbors. I was trying to transmit with my left hand on the handheld today, so I apologize for the occasional confusion :). Thanks to everyone for the contacts.

72! Lád'a OK1LO/Q

K3S, 5W, Windom

NZ No. 460: Poor reception on my end again today. Only toward the end did I manage to make contact with OK1DZD/Q, OK1FKD/Q, and OK2BLD/Q. Thanks to Roman OK2PKT

for the breakthrough QSO.

73, Honza OK5MN (OK1MNV)

Thanks to everyone for the contact, and to Luboš for the QSL card as well. I'm looking forward to the next round—maybe a pileup. 73! ok2pkt

Attached is the NZ 460 logbook from April 19, 2026. Thanks to Luboš for the evaluation, to everyone for the contacts, and to NSL for the next round.

Have a nice day

Tony OK1DOR

Hello,

Conditions were good. Thanks for the contacts and the feedback.

73, Stano OM8AQ
